

How to apply for exemptions for the PG CABW course

If you have already studied a course module at the same or higher level as a module of the PG CABW course, it is possible to request exemption. Exemption from a module will be granted if you can show successful completion of work as defined by the course's learning outcomes. You find a detailed description of the content and learning outcomes of each module in the ECTS files which are available on Toledo.

Please note that exemption can only be granted for a complete module and not for separate parts of a module. If you wish to apply for exemption for the academic year 2017/2018 based on previously acquired qualifications (PAQ), please follow the procedure below.

1. Provide a portfolio with the following items:

- A copy of your diploma.
- For each module you apply for exemption:
 - A written proof that you master the content of this module including the grade obtained and the year of completion of the module.
 - A copy of the ECTS-file of the course module you have already followed (in English, Dutch, French or German).
 - A copy of the course syllabus or course handbook outline of the module.

2. Send your portfolio before 18/9/2017 to: Jolanda@davalon.nl

The program coordinator will assess your application. You will receive an email notification of the outcome of your application before the 1st of October 2017. If you are granted an exemption we will subtract an amount of €120,- per study point from your registration fee.
